

On October 4th, the MATLAB DSP mini-Project Expo-2019' was conducted by the Department of Electronics and Communication Engineering, Panimalar Engineering College, Chennai. The invited Chief guest Dr.C.Esakkiappan HOD/E&I and Dr.P.Kannan HOD/ECE were on hand to open the mini project expo 2019'.The keynote speaker Dr.P.Kannan Prof. & Head, ECE department discussed about the real time issues in the industry and he constantly motivated the students to higher dimensions of technological growth and impacts. Mrs.R.Rajalakshmi ,faculty-ECE ,Co-ordinator of the event spoke about a variety of problems in the domain of Real Time Signal Processing &Applications.

During the day the project students had an opportunity to showcase their ideas along with the supported hardware modules. Around 25 batches of students were participated and presented their works in different areas like Bio signal Processing, Stock market prediction analysis, data mining, signal processing with IOT, Speech Signal Processing etc. The Top three batches were selected and awarded with cash prizes, all the participants were encouraged by certificates issued by our invited Chief guest Dr.C.Esakkiappan Prof. & Head, E&I department and overall the event went successfully with the grace of almighty.
